

Leah Davis

Full-Stack Software Engineer

Los Angeles | LeahDavis25624@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

I am a full-stack software engineer with a comedy writer and yoga instructor background. Like screenwriting, programming is a technical art that couples unconventional thinking with detailed planning in order to create something new. And, like yoga, programming requires intense focus and methodical attention to detail - practice and all is coming.

SKILLS

React | JavaScript | NodeJs | Express | Mongoose | MongoDB | NoSQL database | Python | Django | SQL database | PostgreSQL | Bootstrap | Materialize | HTML | CSS | APIs | JWT | OAuth | Terminal | Github | Git | Responsive Design

PROJECTS

WAYFAYER is a full-CRUD, full-stack travel-blog where users can login to create a profile to share their discoveries from new cities around the world with friends and fellow travelers.

Technologies used: Python, Django, PostgreSQL, JavaScript, HTML, CSS, Heroku, Github, Git

THE COLLECTOR'S GUILD is a one-day collaboration with a UX/UI team. Our team designed and built to specification the landing page for a full-stack web-application. We utilized a database to track the acquisition of new users and their interests.

Technologies used: Express, MongoDB, Mongoose, JavaScript, Node.js, HTML, CSS, Heroku, EJS, dotenv, Github, Git

YOVO is a three-day hackathon collaboration with a UX/UI team to encourage voting. YoVo utilizes an external API to deliver polling location information to its target market of Gen-Z users.

Technologies used: External API, JavaScript, HTML, CSS, Github, Git

IT'S GONNA BE GREAT! a hilarious and heart-warming teen-romantic comedy screenplay and Nicholls Fellowship semifinalist (placed in the top 5% out of 7,831 entries).

EDUCATION

General Assembly Software Engineering Immersive	2020
YogaWorks 500-Hour Yoga Teacher Training	2011
